

# **LARAVEL ECOMMERCE DASHBOARD**

## PROJECT DESCRIPTION

A comprehensive dashboard designed for efficient inventory management in an e-commerce setting. Enables seamless tracking, updating, and categorization of products with real-time data interaction. Features include intuitive product organization, stock level monitoring, and streamlined workflows for managing item details, availability, and updates.

## ROLE DESCRIPTION

**Full Stack Developer** – Laravel, MariaDB, Bootstrap, HTML, jQuery

Migrated an e-commerce platform from legacy PHP to the Laravel framework, enhancing performance, maintainability, and scalability. Led the development of core admin features such as product management, order tracking, and user access control. Integrated third-party APIs to extend functionality, including payment gateways and shipping services. Collaborated with stakeholders to ensure smooth feature transitions and an improved admin user experience.
